

43 AI-Powered Tools to (Hugely) Boost Productivity

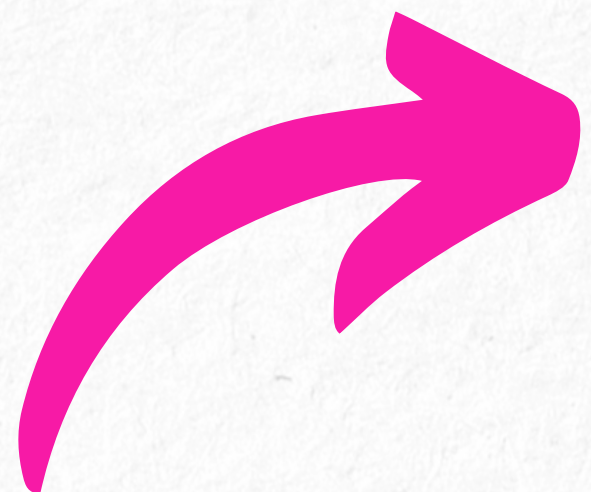

**ChatGPT is
just the
start.**

AI is
transforming
entire industries.

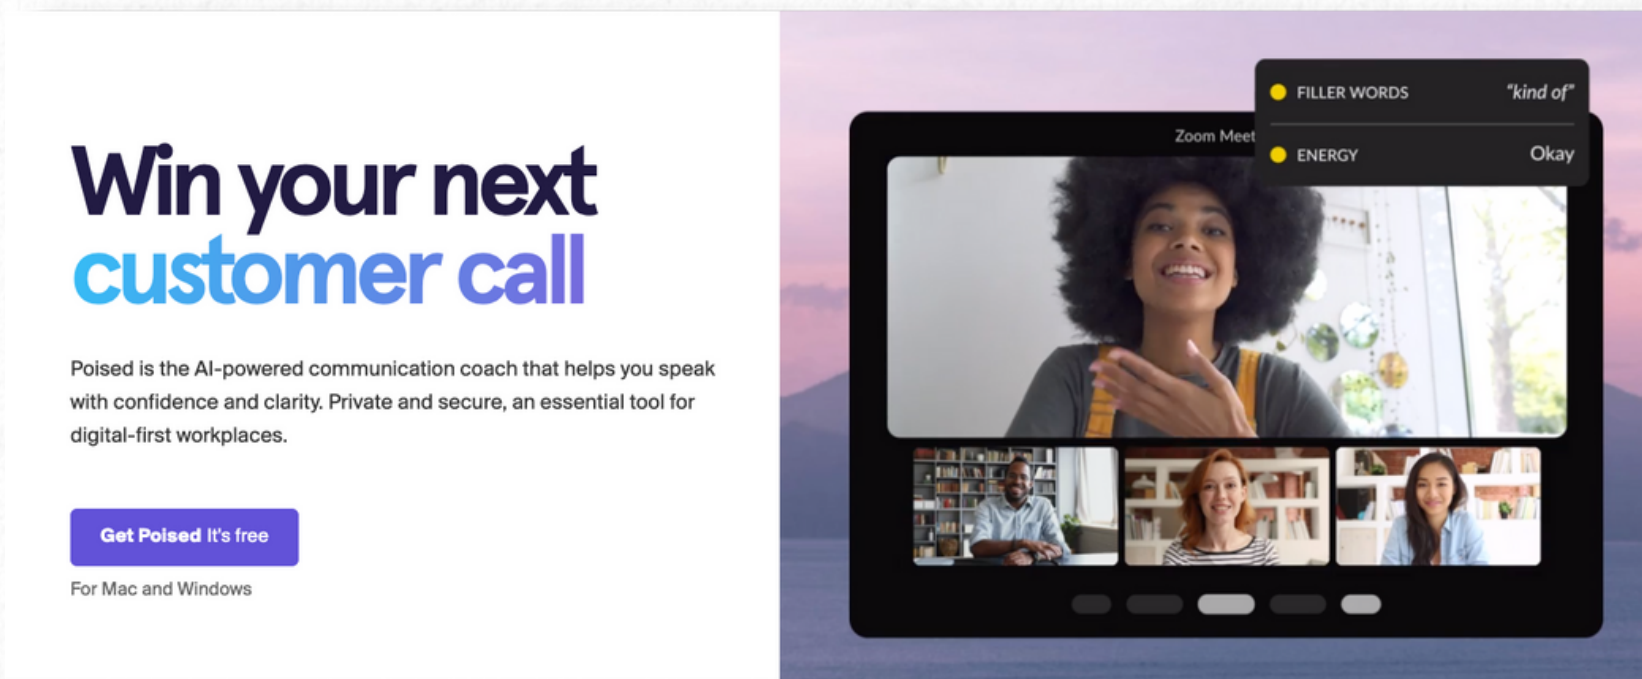

**But certain AI
tools have
taken the
initiative.**

Here are the most
exciting platforms
leading the
charge.

1. Poised

Win your next customer call

Poised is the AI-powered communication coach that helps you speak with confidence and clarity. Private and secure, an essential tool for digital-first workplaces.

[Get Poised It's free](#)

For Mac and Windows

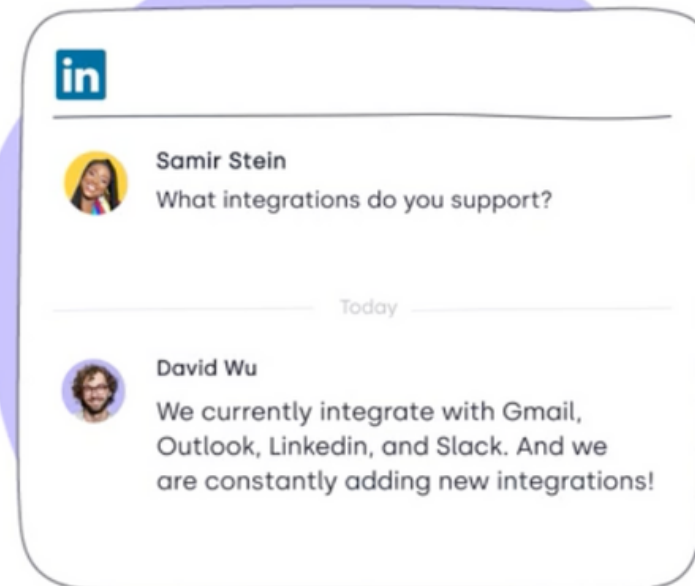

The right side of the image shows a Zoom meeting interface. A large video window shows a woman with an afro speaking. A smaller window below shows three other participants. A floating overlay in the top right corner displays two metrics: 'FILLER WORDS' with a yellow dot and the text '"kind of"', and 'ENERGY' with a yellow dot and the text 'Okay'.

Simulates public speaking situations and uses GPT-3 to analyze your results.

2. Pragma

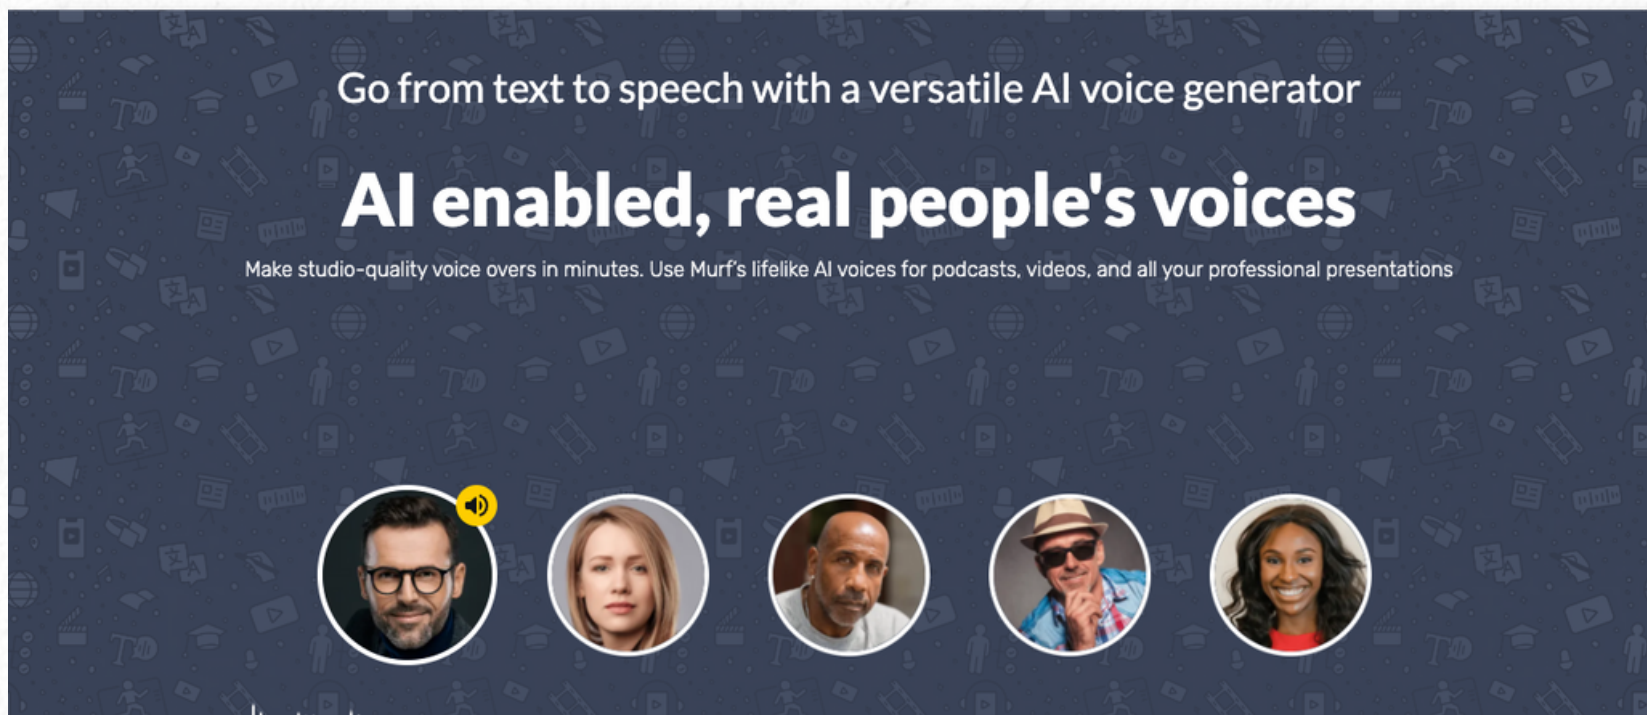

Your AI Assistant for Sales & Success

Are you tired of spending hours trying to find the right answers to customer questions or struggling to craft the perfect outreach message?

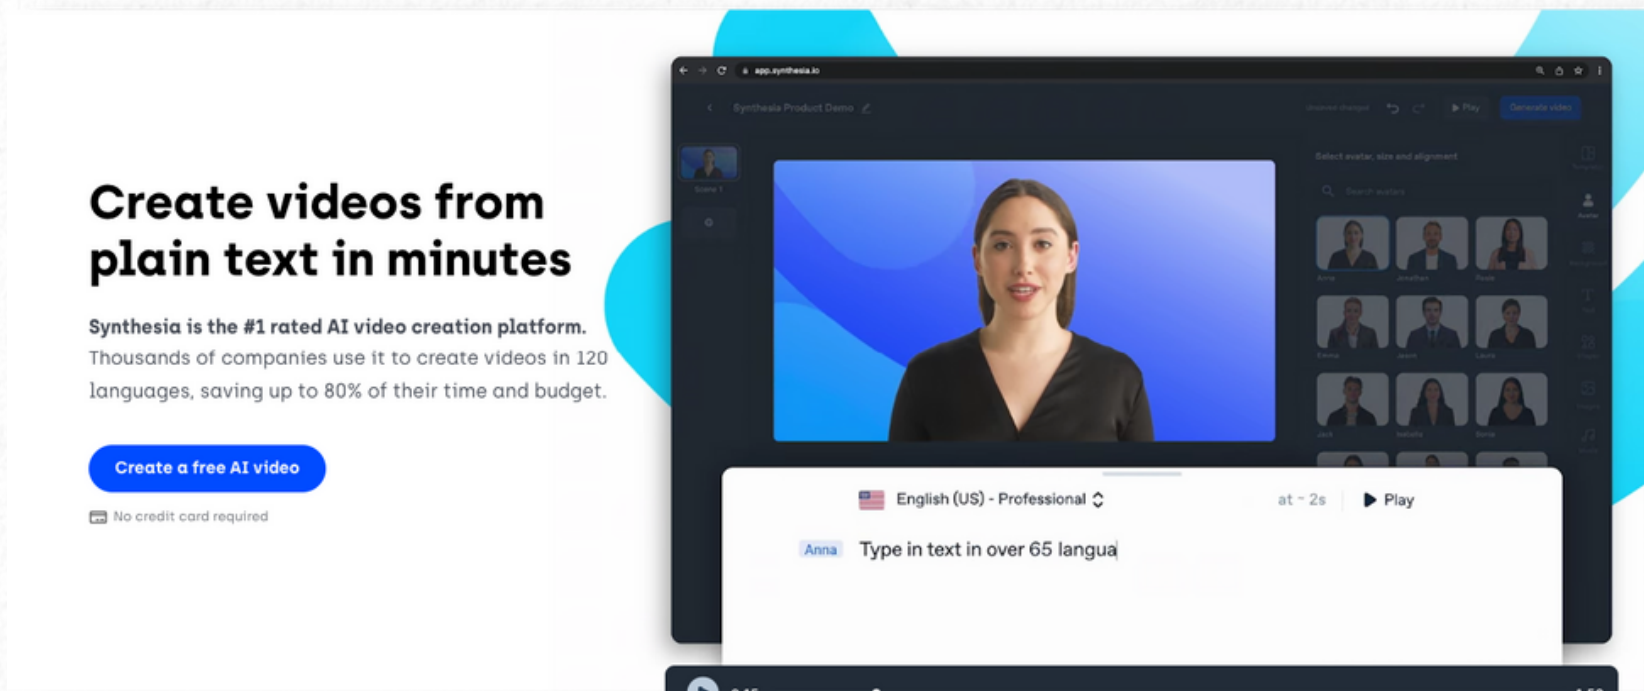

Centralizes your entire org's knowledgebase for easy reference at any time.

3. Murf

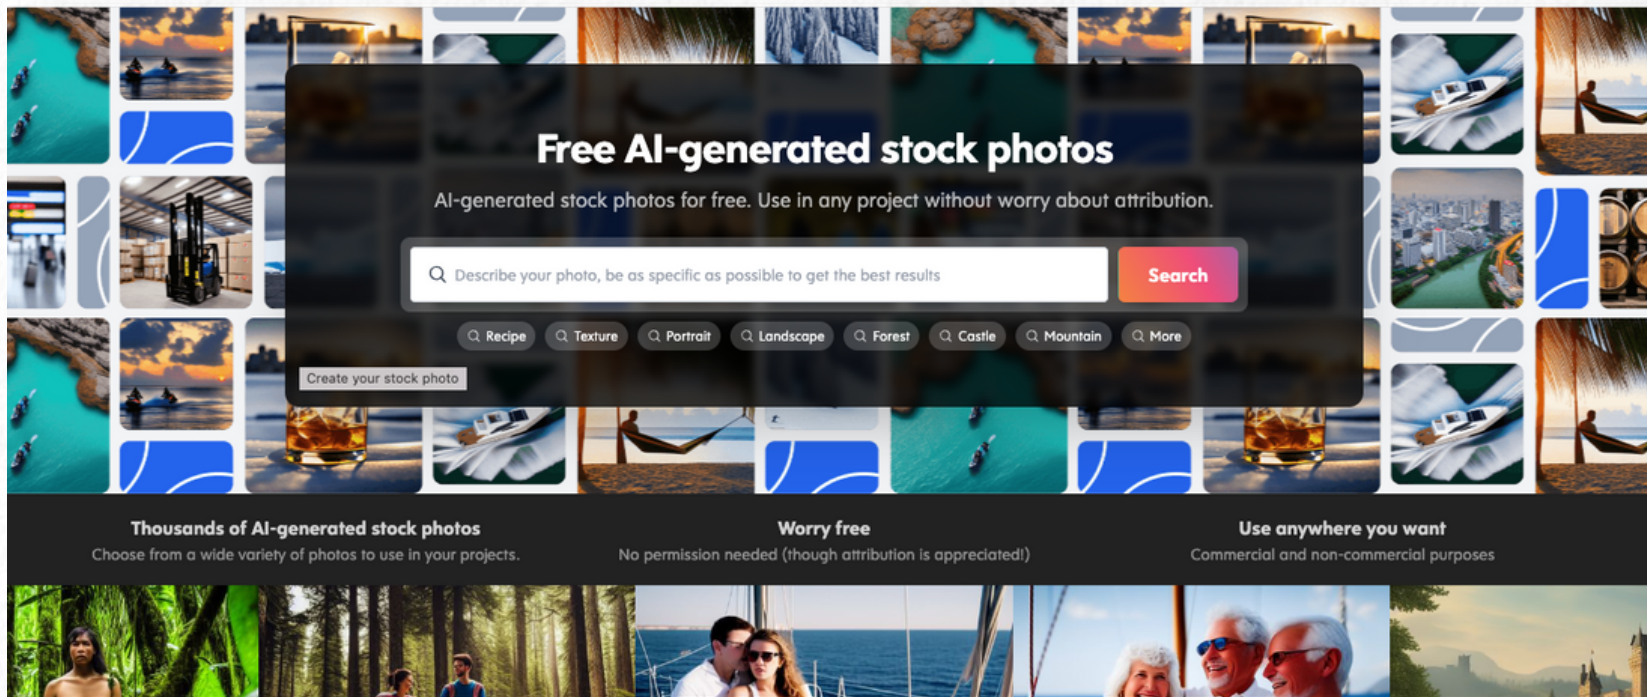

Turns your text into a human-sounding voice—the demo blew me away.

4. Synthesia

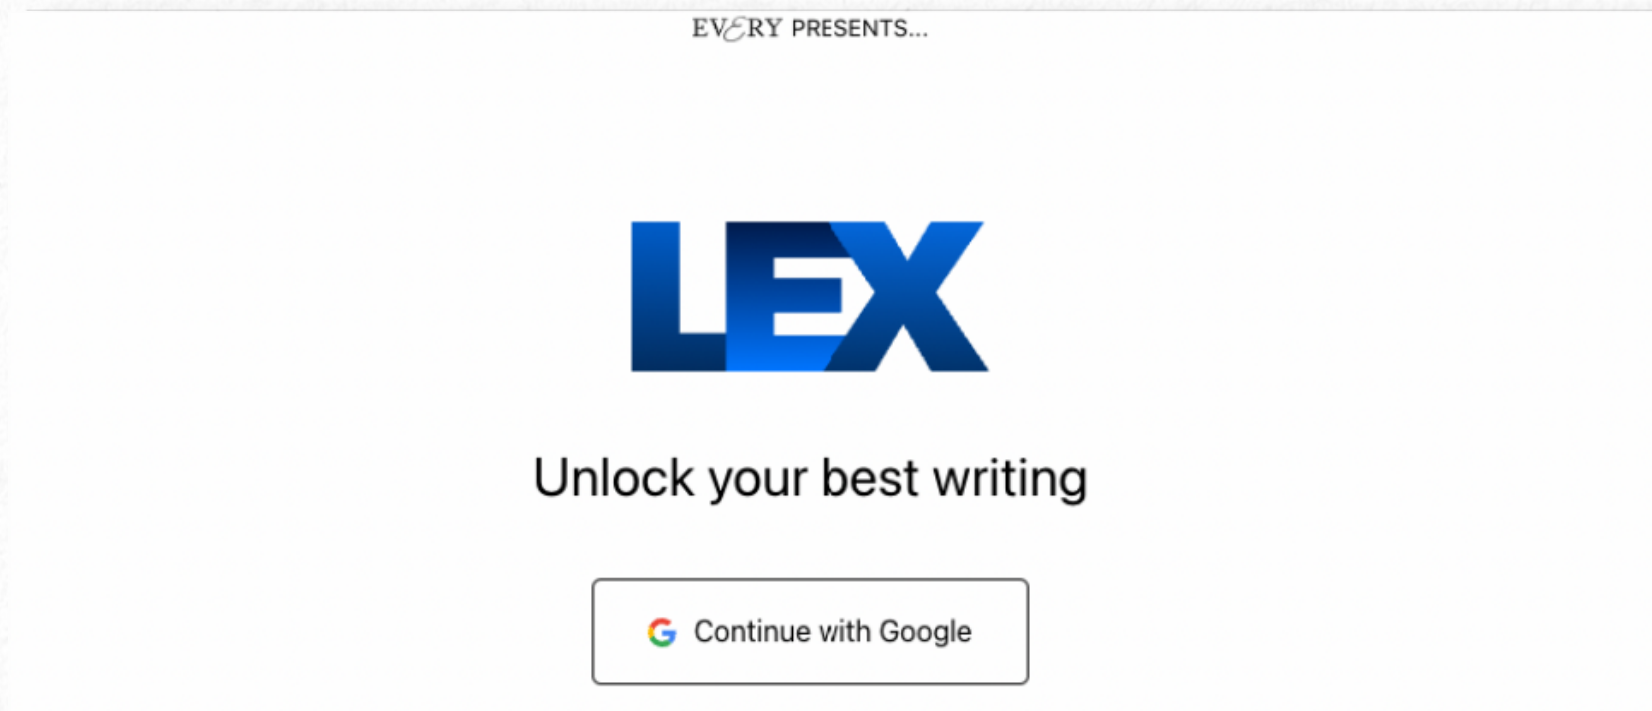

Go from plain text to realistic video clips almost instantly with highly impressive output.

5. StockAI

Massive collection of free, AI-generated stock photos in high-quality.

6. Lex Page

An AI-enhanced word processor that's scarily-good at imitating your tone.

7. Craftly

**Changing the way the
world writes.**

Rephrase

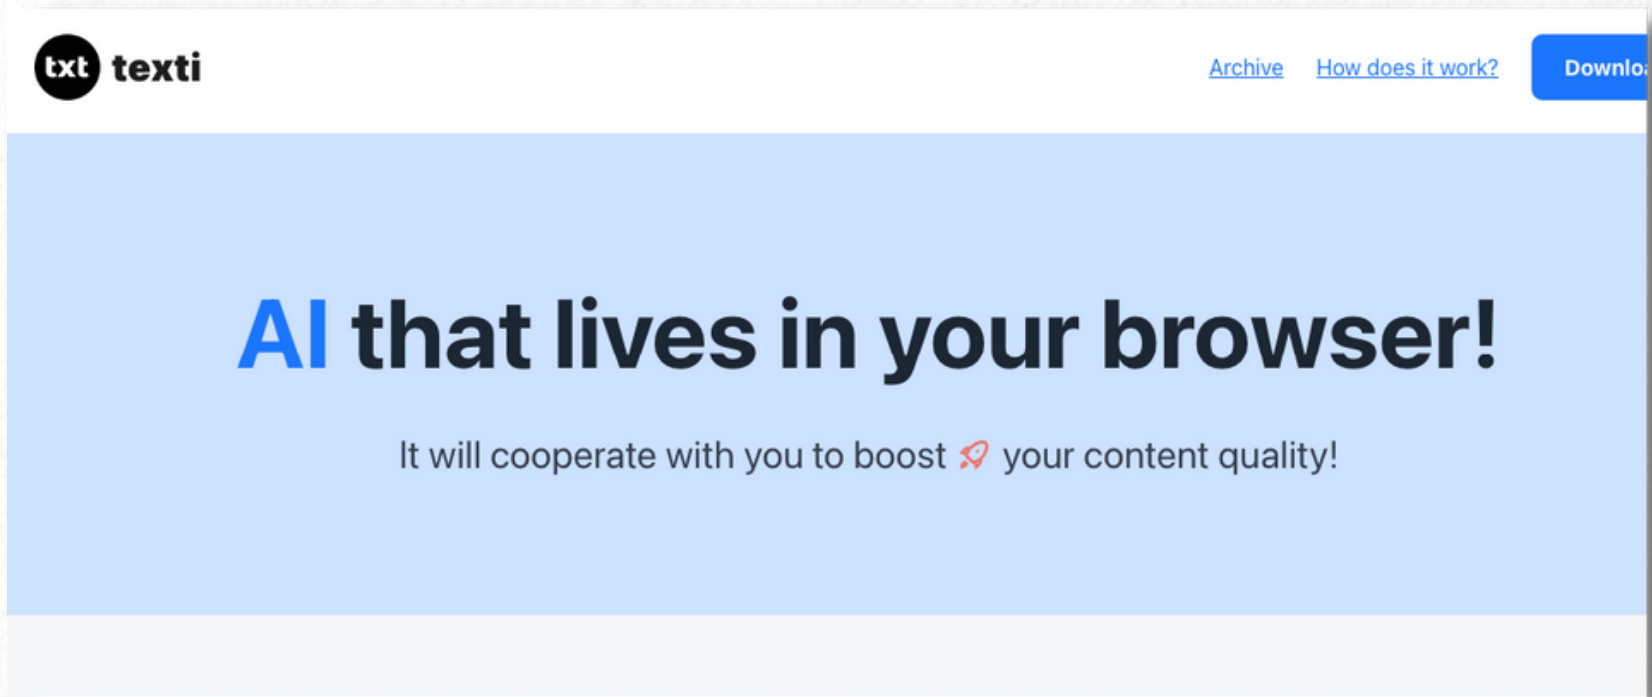

The AI Copywriting Studio that generates tools for original, high converting content the way you like it.

Get Started - 5 days free

Learn more

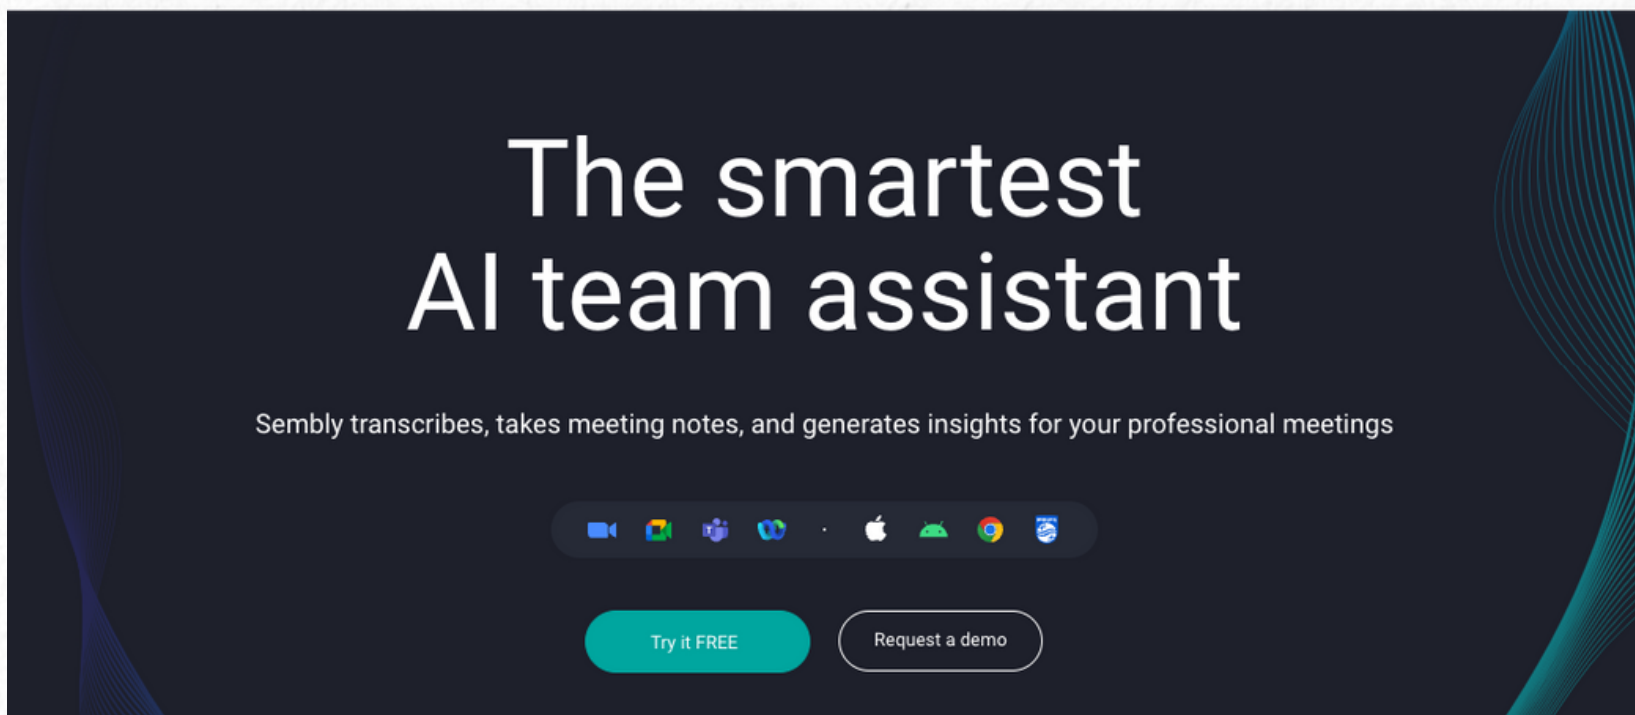

AI copywriting tool with a mind-bogglingly huge library of templates and settings for everything you can think of.

8. Texti

ChatGPT, but it's with you wherever you go on the web.

9. **Sembly**

With Sembly, all meetings are recorded, analyzed, transcribed, and synthesized into valuable insight.

10. Browse

Browse AI Prebuilt Robots Use Cases Resources About Us Pricing Login Get Started for

The easiest way to extract and monitor data from any website.

Train a robot in 2 minutes. No coding required.

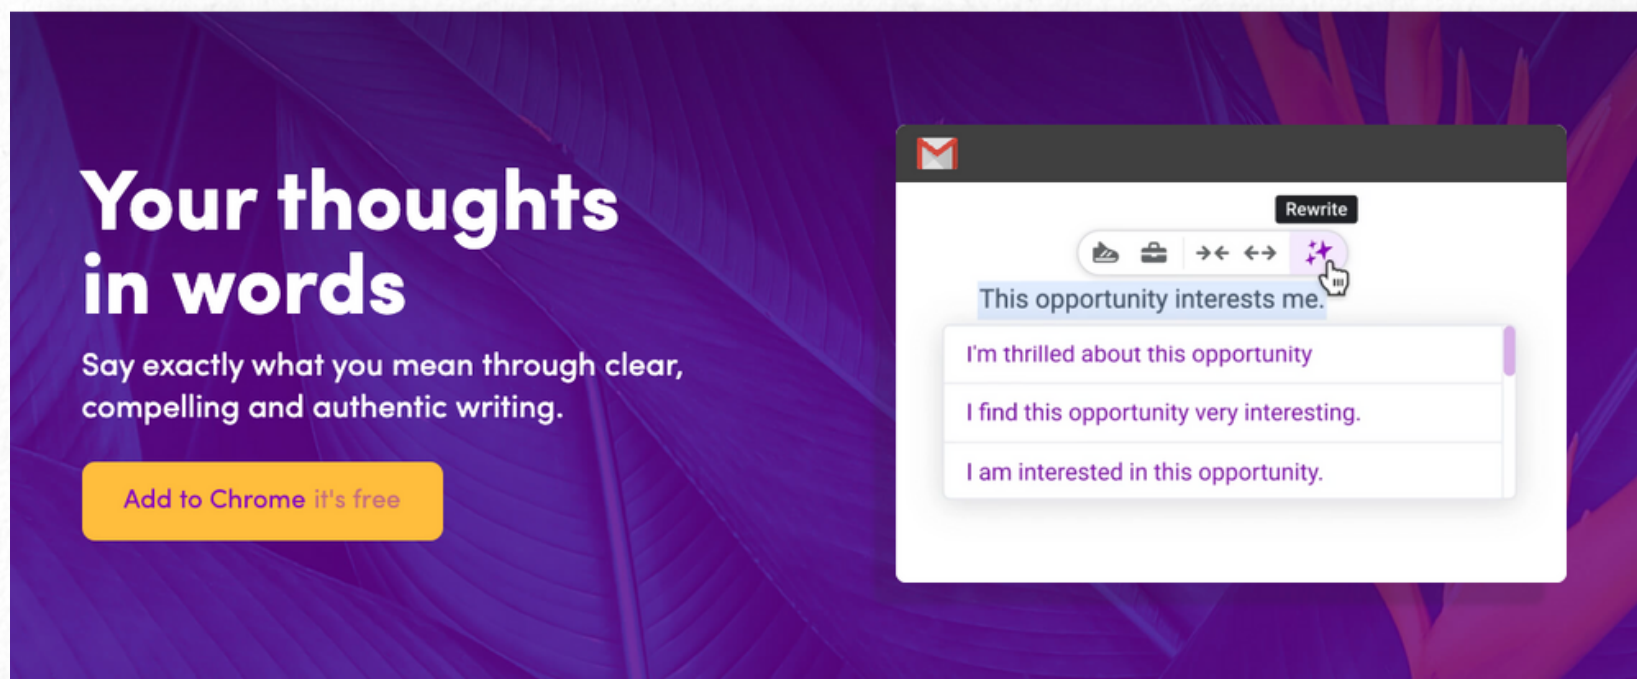

Get Started What can it do?

1-Click Automations

Type	Icon	Description
Extract data	Google	Find a person's social media profile links
Monitor	Amazon	Monitor Amazon US search ads
Competitive Intelligence	Amazon	Monitor Amazon US paid search results for specific keywords and filters
SEO	Amazon	Monitor Amazon US organic and paid search results for specific keywords and filters
Site	Booking.com	Monitor hotel data, reviews, listings and prices on Booking.com
Google	Booking.com	Monitor Booking.com search results and get a notification when listings, reviews, or prices change
Amazon	FDA	Monitor FDA approval status for drug
Booking.com	Google Maps	Monitor Google Maps search results
FDA	Google	Monitor organic Google search results
Google	Google	Monitor Google places information

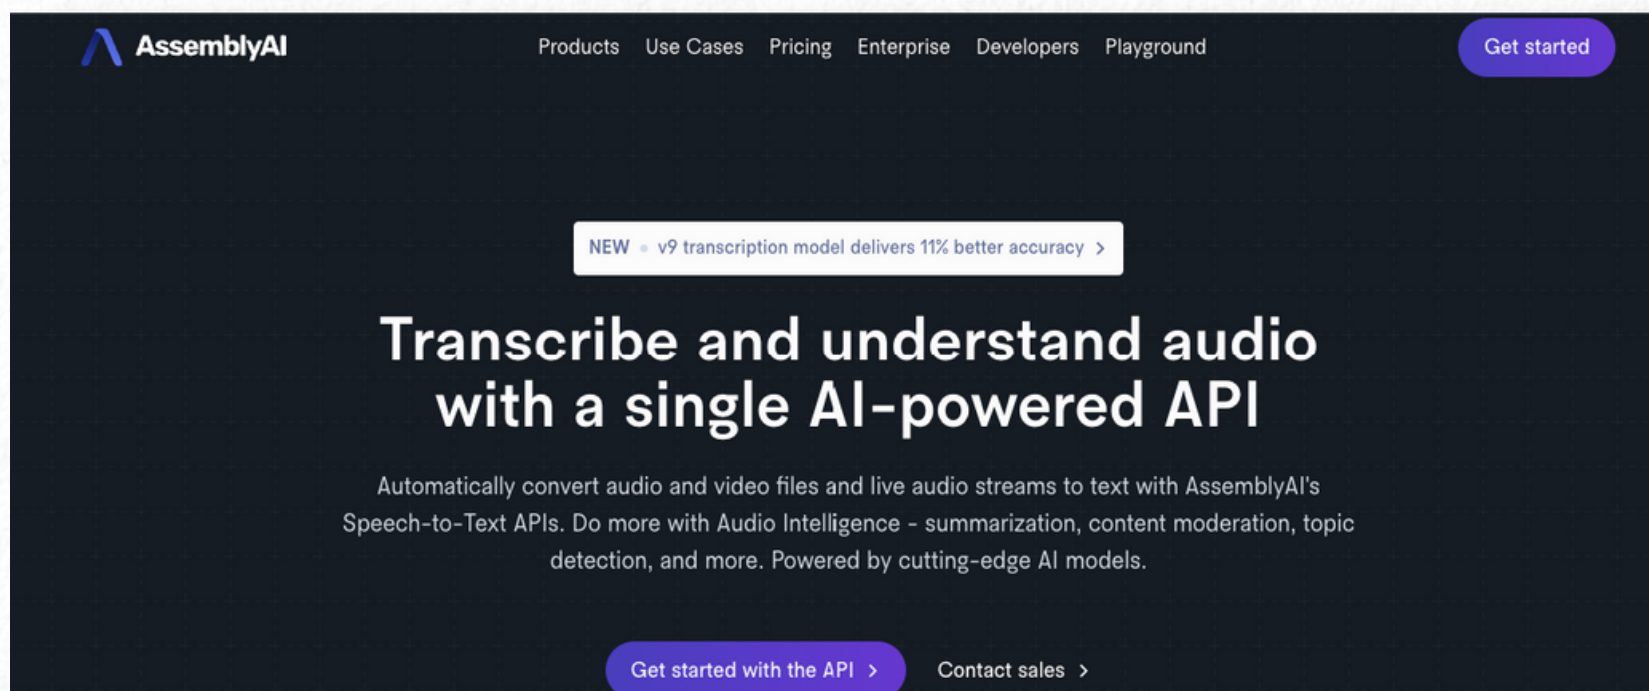

Extracts data from—and monitors—competitor websites easily.

11. WordTune

Uses GPT-3 technology to recommend impressive alternatives to words, sentences, and paragraphs.

12. AssemblyAI

Opposite of Murf—turns audio content into transcriptions with high accuracy.

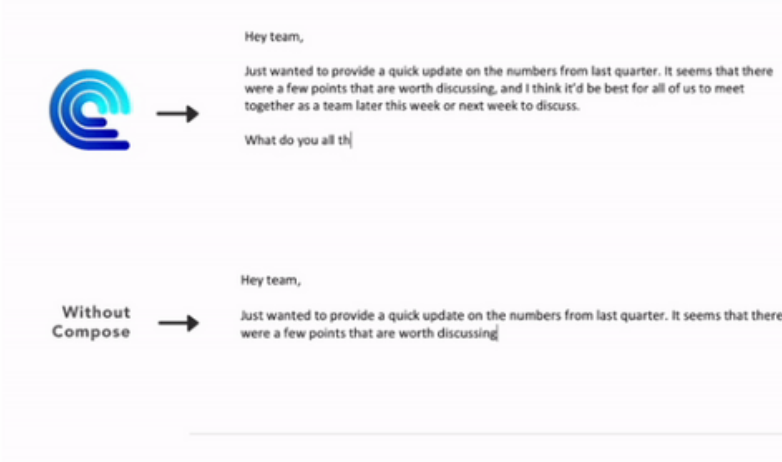

13. Compose

Write Faster With AI, Save Time ⚡

Compose AI is a free Chrome extension that cuts your writing time by 40% with AI-powered autocompletion

 [Download Free Extension](#)

Backed by  **Combinator**

The screenshot shows two examples of text completion. The top example shows the Compose AI logo (a blue swirl) with an arrow pointing to a text input field. The text in the field is "Hey team, Just wanted to provide a quick update on the numbers from last quarter. It seems that there were a few points that are worth discussing, and I think it'd be best for all of us to meet together as a team later this week or next week to discuss. What do you all th". The bottom example shows the text "Without Compose" with an arrow pointing to the same text input field, but the text is truncated to "Hey team, Just wanted to provide a quick update on the numbers from last quarter. It seems that there were a few points that are worth discussing".

Free Chrome extension that finishes your sentences for you.

14. DALL·E-2

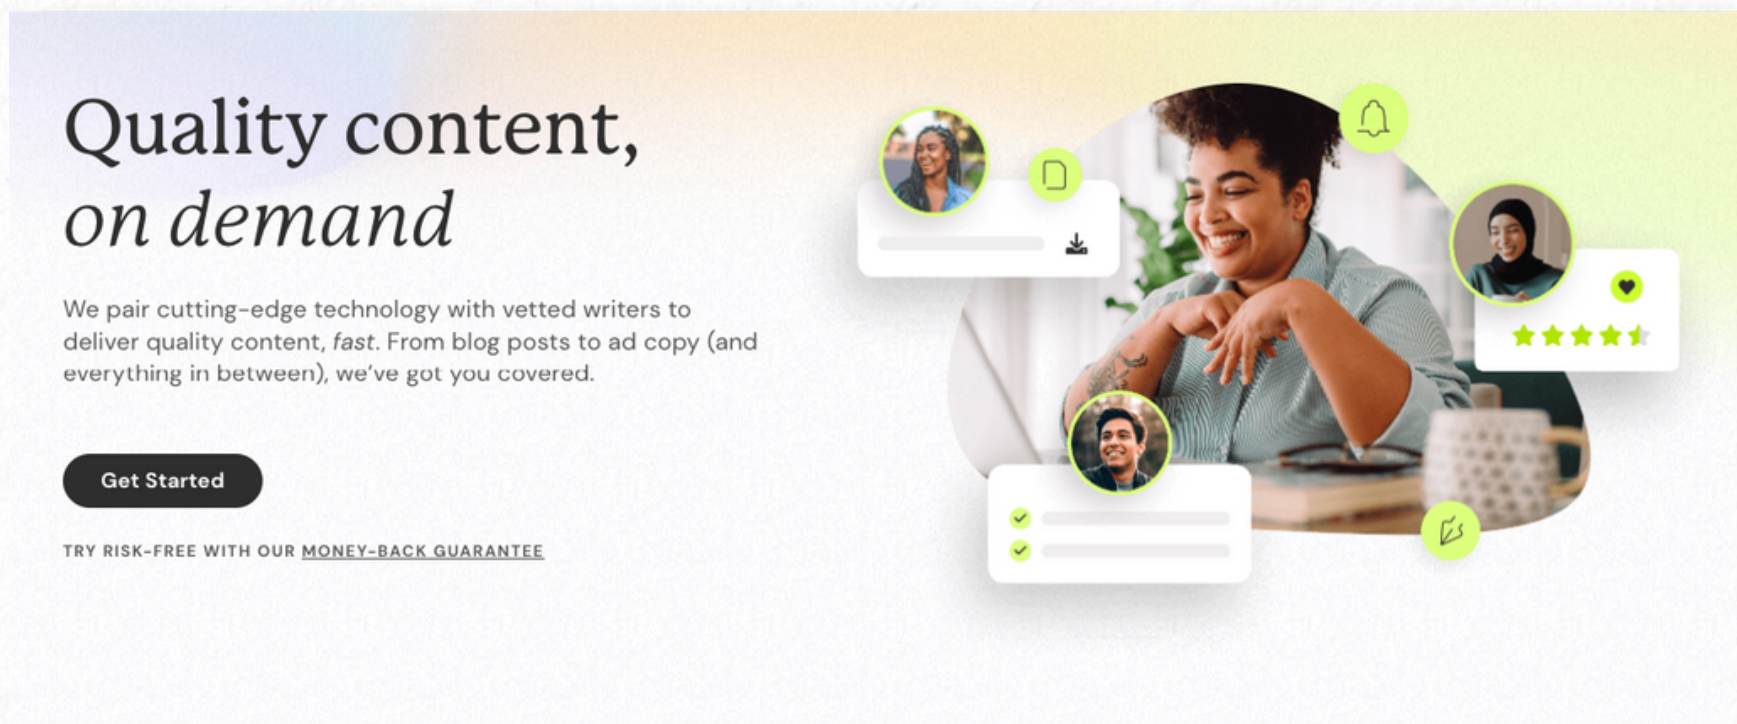

Groundbreaking text to image platform by the makers of ChatGPT.

15. Stable Diffusion

Another text to image AI,
but completely free to
use.

16. Draft

A promotional banner for Draft.com. On the left, the text reads "Quality content, on demand" in a serif font, followed by a smaller line: "We pair cutting-edge technology with vetted writers to deliver quality content, fast. From blog posts to ad copy (and everything in between), we've got you covered." Below this is a dark "Get Started" button and a line of text: "TRY RISK-FREE WITH OUR MONEY-BACK GUARANTEE". On the right, a woman is shown smiling at a laptop. Overlaid on the image are several UI elements: a notification bell, a document icon, a profile card with a woman's photo and a download arrow, a profile card with a woman's photo, a heart icon, and a five-star rating, and a profile card with a man's photo and two green checkmarks. A green pencil icon is also visible in the bottom right corner of the image area.

Quality content,
on demand

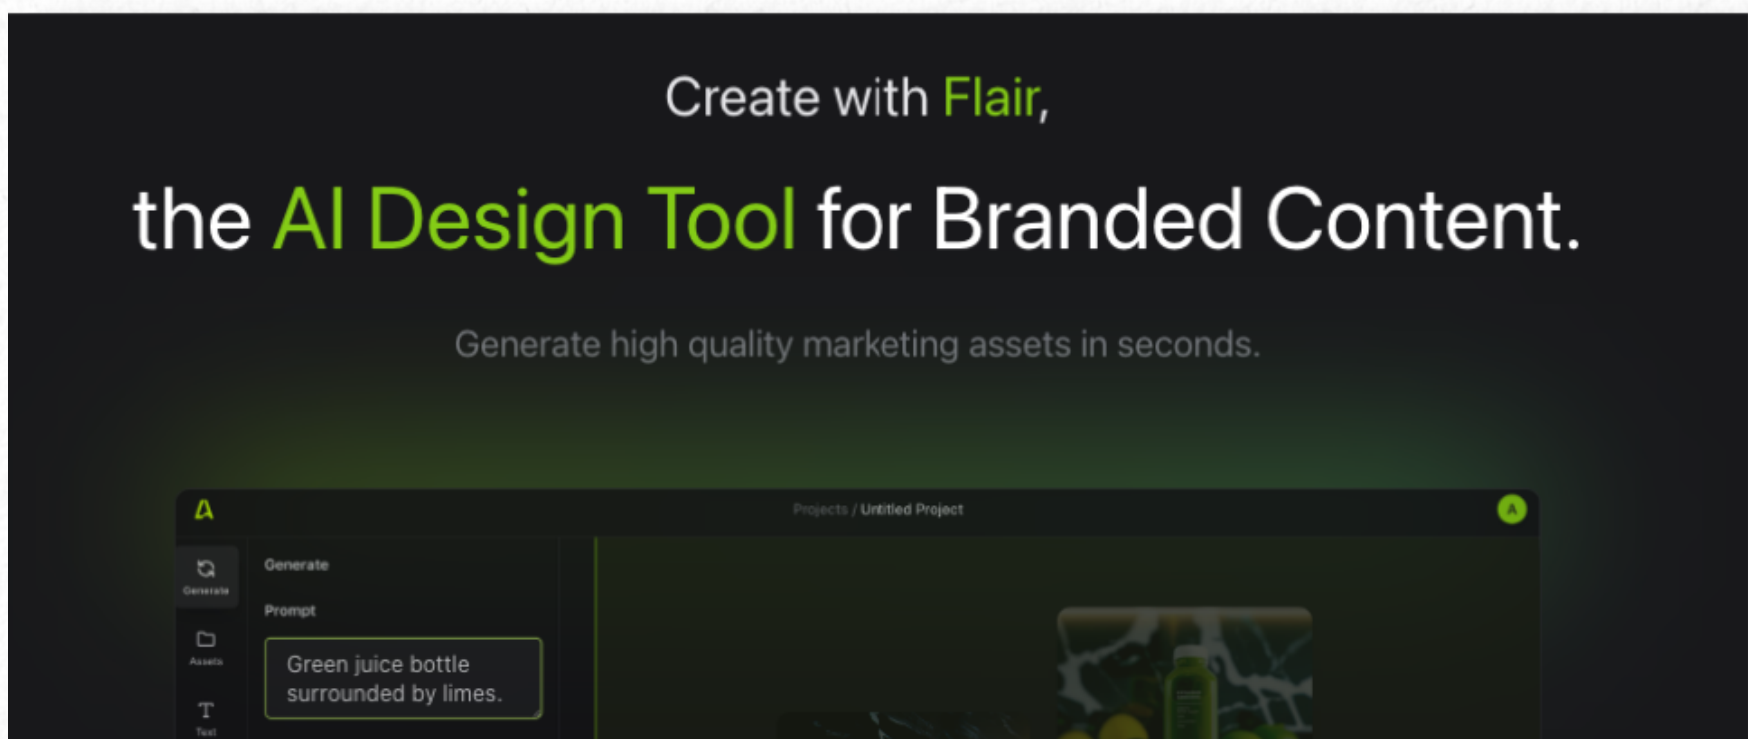

We pair cutting-edge technology with vetted writers to deliver quality content, fast. From blog posts to ad copy (and everything in between), we've got you covered.

[Get Started](#)

TRY RISK-FREE WITH OUR [MONEY-BACK GUARANTEE](#)

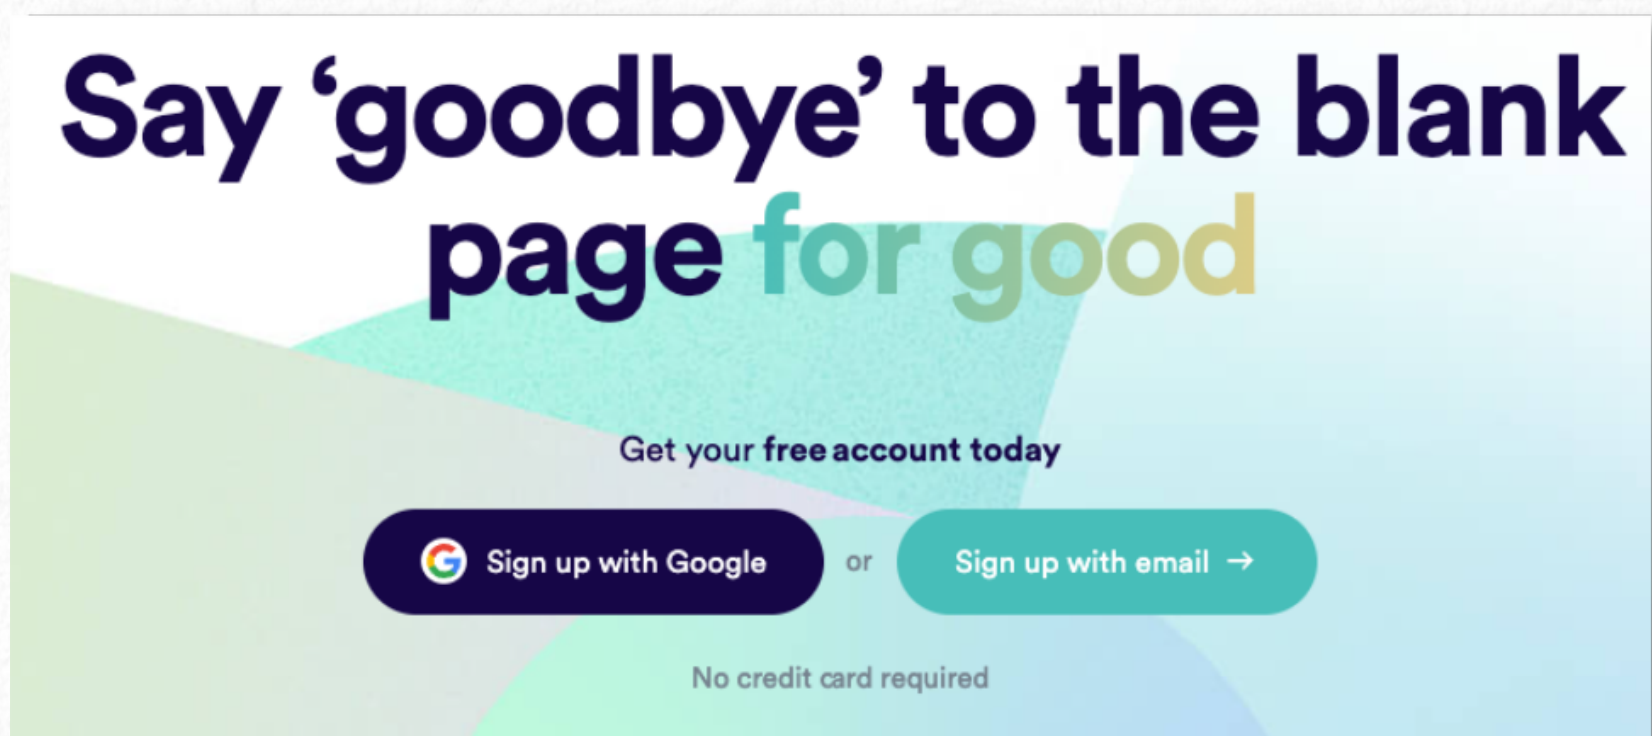

Hybrid content service that pairs AI-writers with real humans for fast, quality output.

17. Flair

AI design tool leveraging text to image tech to create quality brand assets in seconds.

18. Copy AI

AI-powered copywriter that generates huge amounts of quality content instantly.

19. Ideas AI

Ideas on this page are 100% generated by OpenAI's GPT-3, an artificially intelligent deep learning model, without human involvement, and trained by you and 1,457,521+ other people who liked or disliked ideas. [How it works](#)

by @levelsio

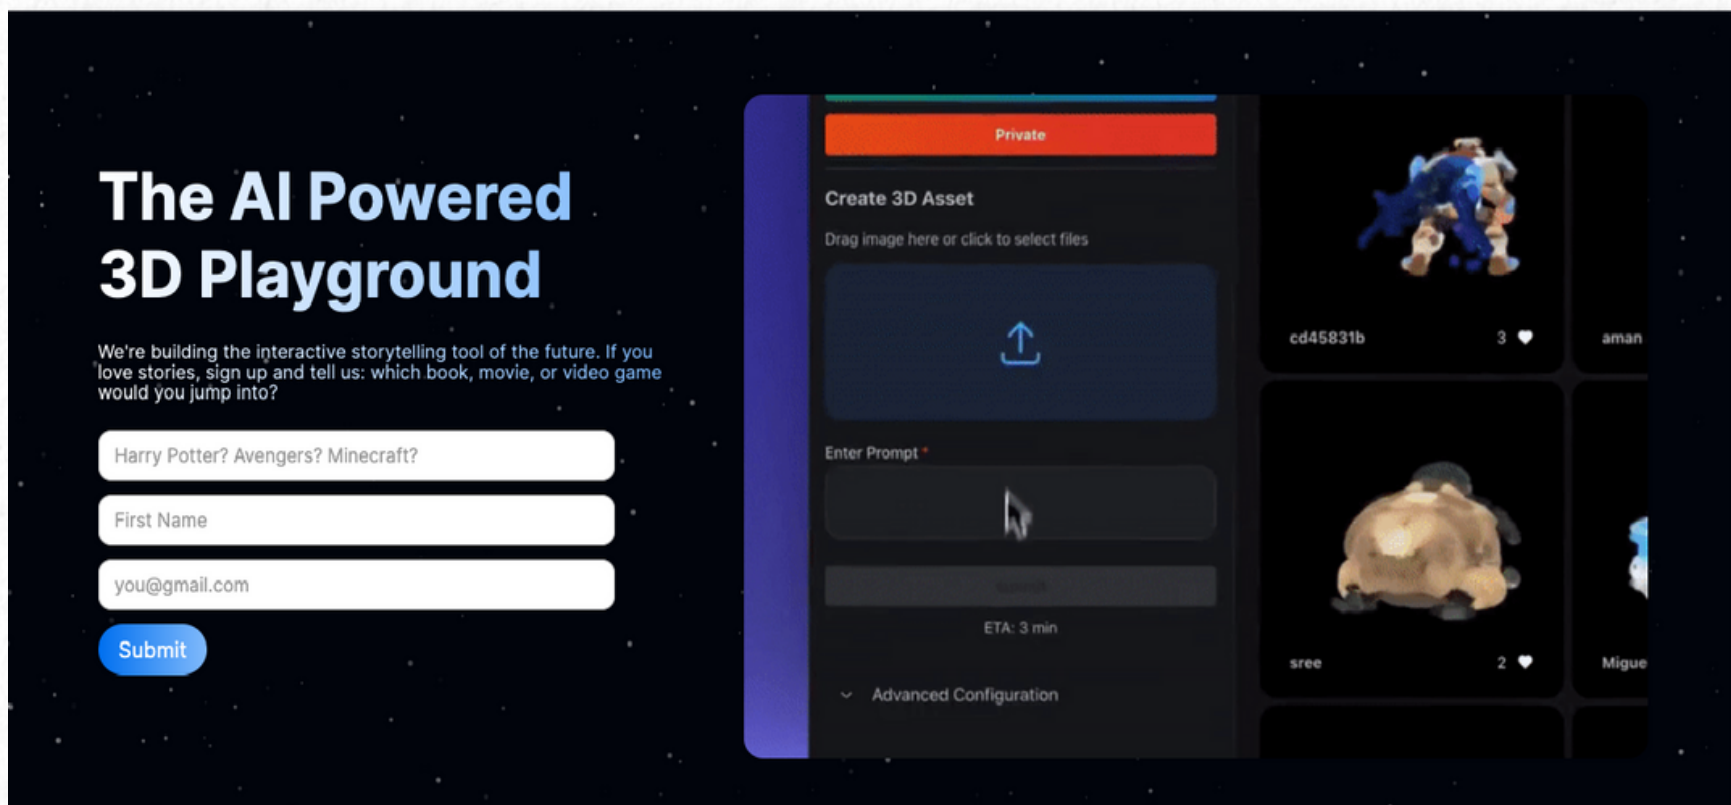

A digital assistant for finding local restaurants and bars, as well as menus, with a concierge service.

✕ 26 ❤️

6 days ago

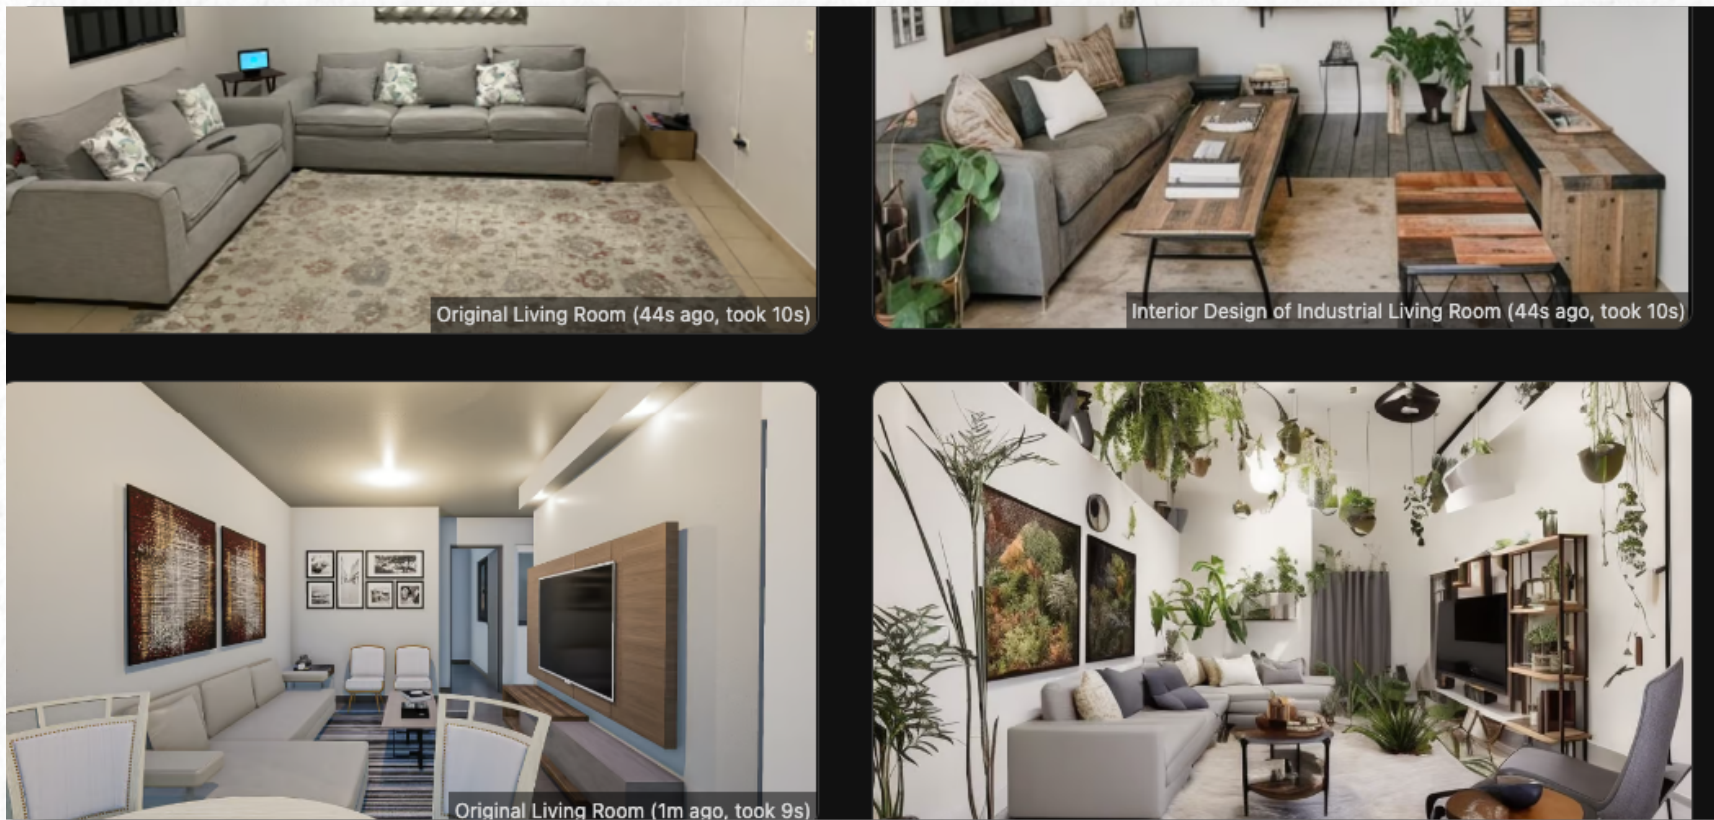

GPT-3-based tool that generates product and business ideas on demand.

20. Mirage

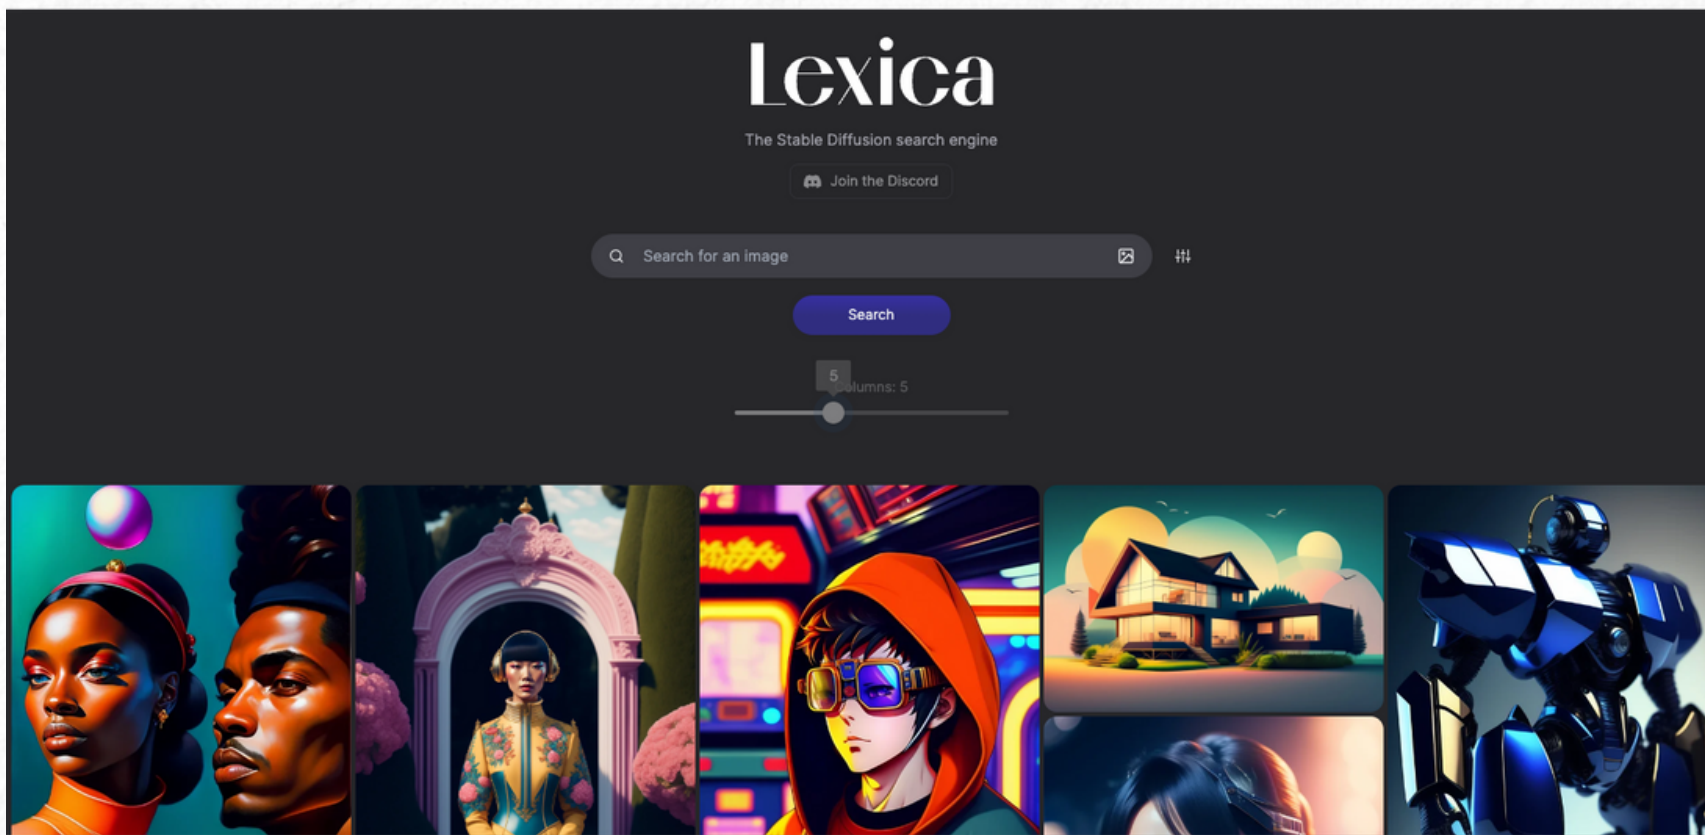

Generates 3D models based on whatever prompt you give it, not unlike DALL·E-2.

21. InteriorAI

Take a photo of your workspace, then let InteriorAI redesign it in a render based on your text.

22. Lexica

Search a massive library of curated AI images created by Stable Diffusion pros.

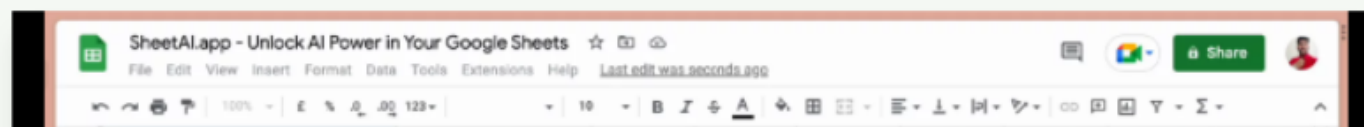

23. SheetAI

24. Mem

The self-organizing workspace

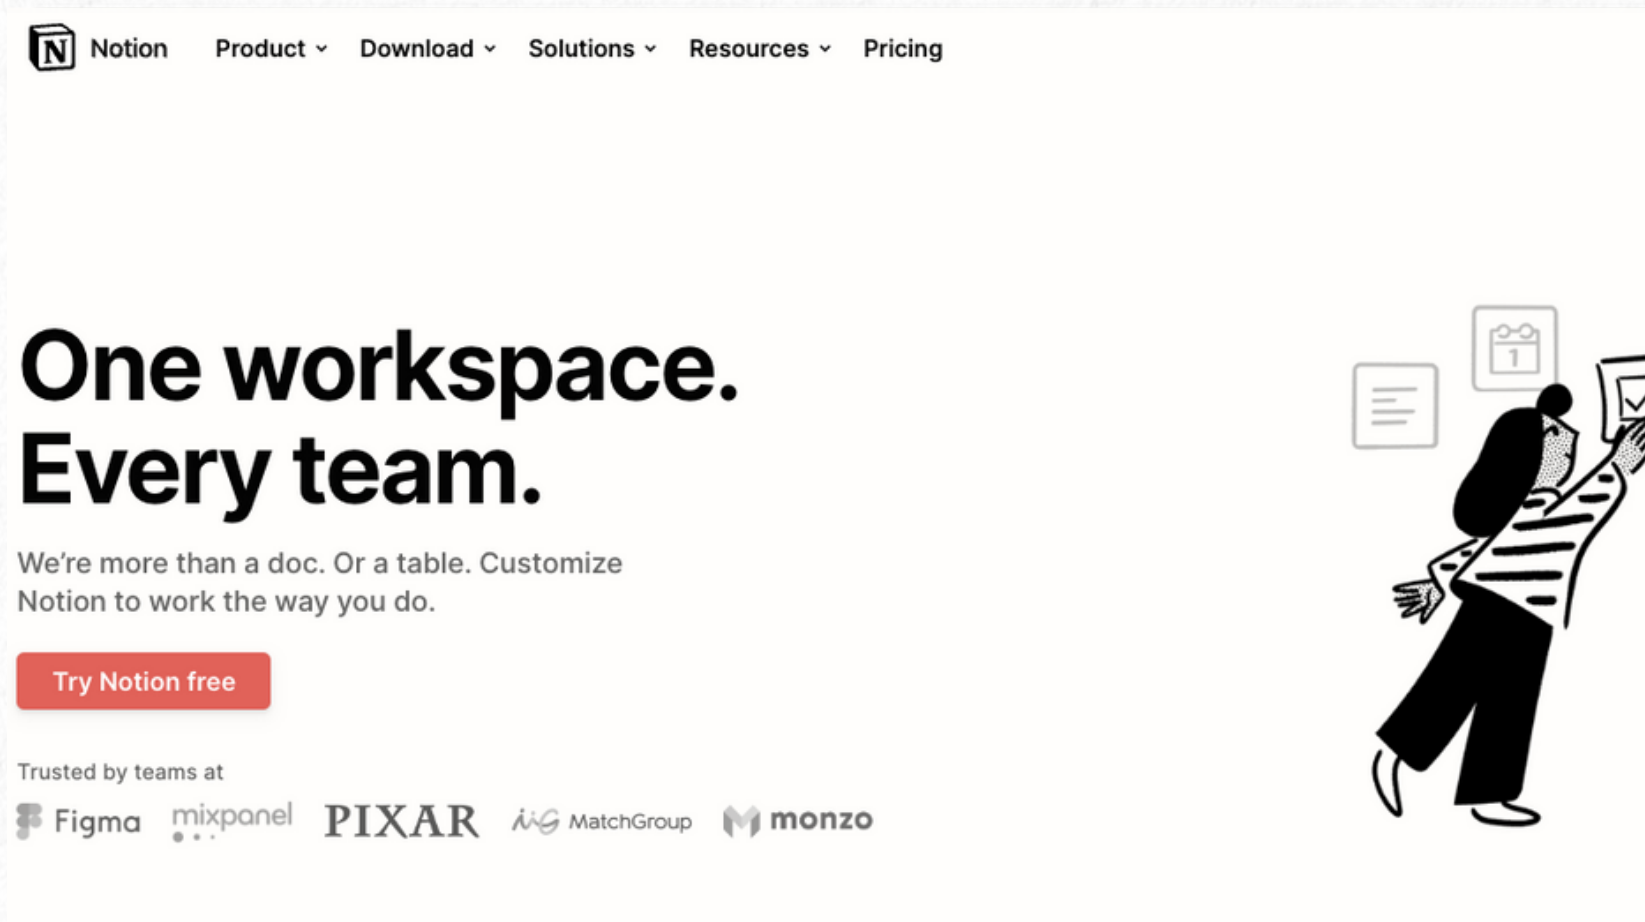

Mem is the world's first AI-powered workspace that's personalized to you. Amplify your creativity, automate the mundane, and stay organized automatically.

Start for free

Think Notion, but uses AI to self-organize your notes.

25. Notion

The screenshot shows the Notion website homepage. At the top, there is a navigation bar with the Notion logo and links for Product, Download, Solutions, Resources, and Pricing. The main headline reads "One workspace. Every team." Below this, a sub-headline states "We're more than a doc. Or a table. Customize Notion to work the way you do." A red button labeled "Try Notion free" is positioned below the text. To the right, there is a stylized illustration of a person in a suit holding a large document, with icons for a document, a calendar, and a checklist floating around them. At the bottom, a section titled "Trusted by teams at" features logos for Figma, mixpanel, PIXAR, MatchGroup, and monzo.

Notion Product Download Solutions Resources Pricing

One workspace. Every team.

We're more than a doc. Or a table. Customize Notion to work the way you do.

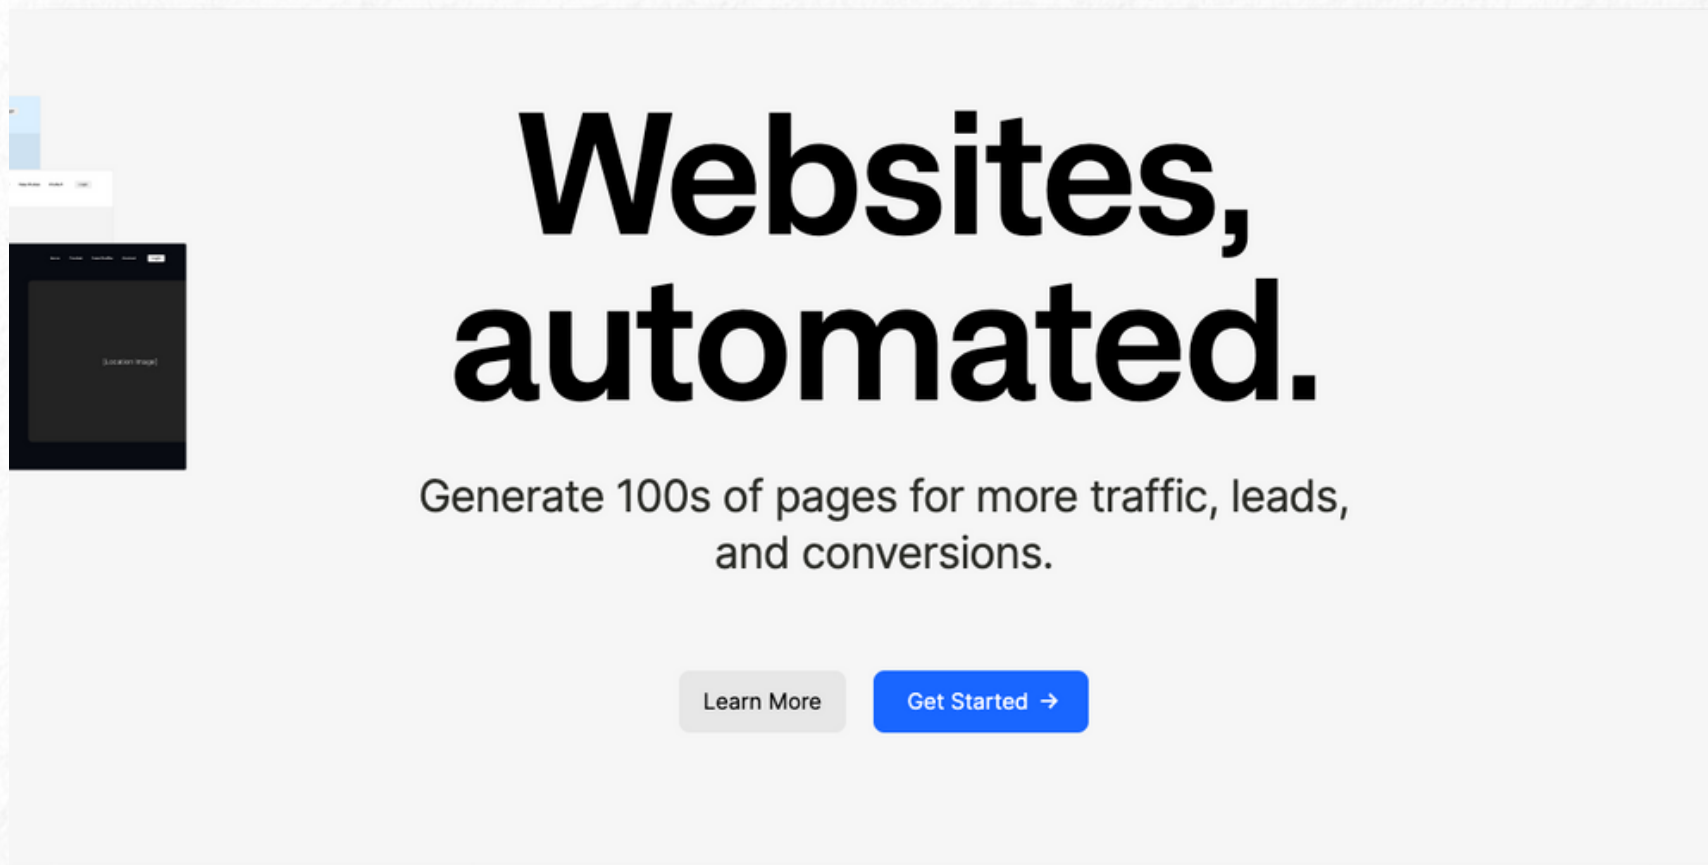

Try Notion free

Trusted by teams at

Figma mixpanel PIXAR MatchGroup monzo

It's not like Notion was going to let Mem steal their thunder, so they've added AI to their product.

26. TheCom

A screenshot of a website landing page for 'TheCom'. On the left side, there is a vertical stack of three overlapping browser window icons. The main heading is 'Websites, automated.' in a large, bold, black font. Below the heading, the text reads 'Generate 100s of pages for more traffic, leads, and conversions.' At the bottom, there are two buttons: a grey 'Learn More' button and a blue 'Get Started →' button.

**Websites,
automated.**

Generate 100s of pages for more traffic, leads,
and conversions.

[Learn More](#) [Get Started →](#)

Generates 100s of site pages specifically optimized for their use case.
